

ASSIGNMENT 1: Configure a Budget in AWS

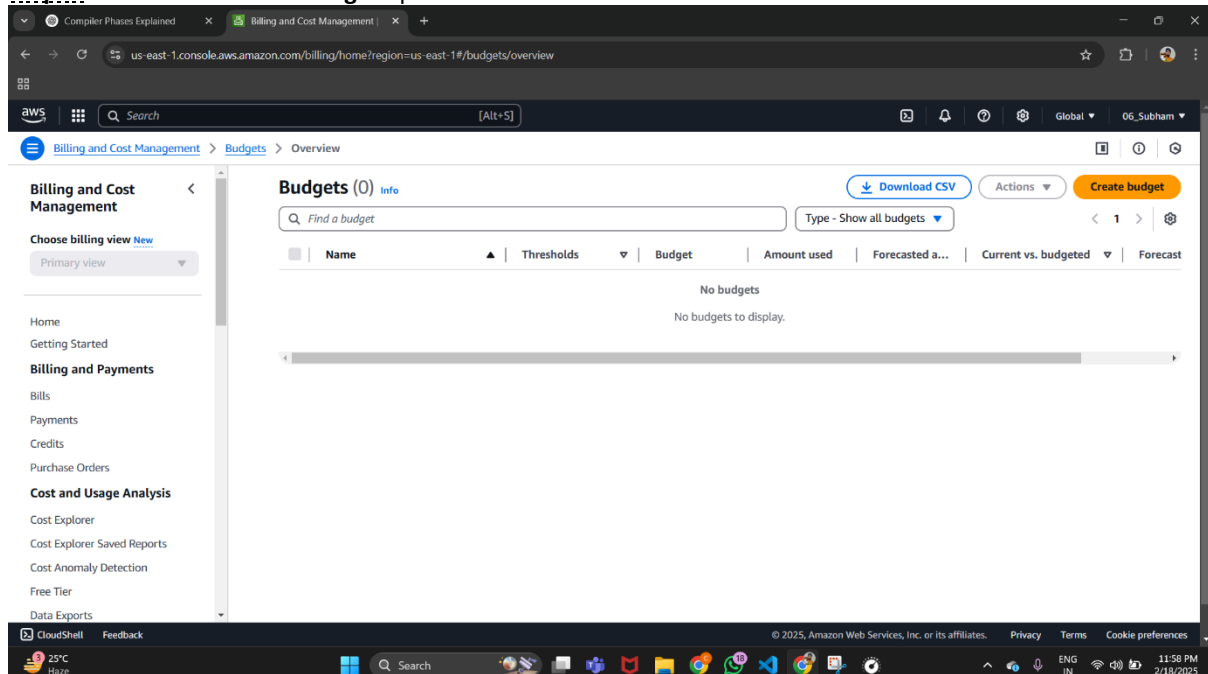

Step 1: After creating an account in AWS, search for and open **Billing and Cost Management**.

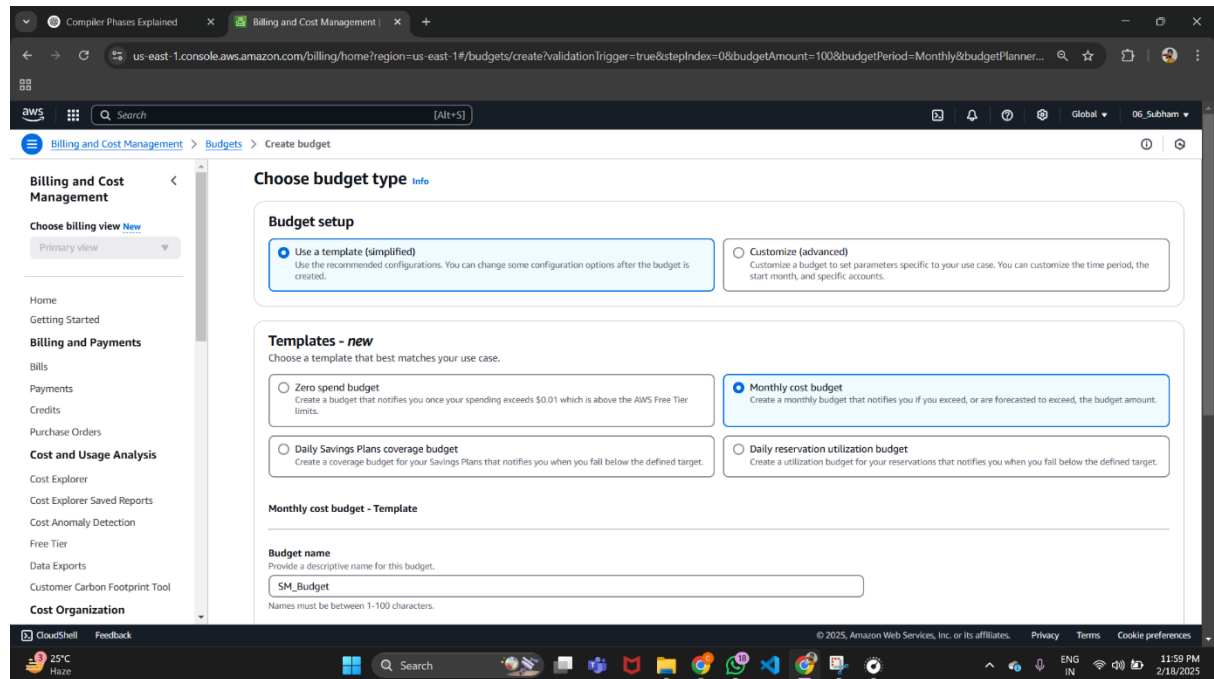

Step 2: Navigate to the **Budgets** section in the left-hand menu under **Budgets and Planning**.

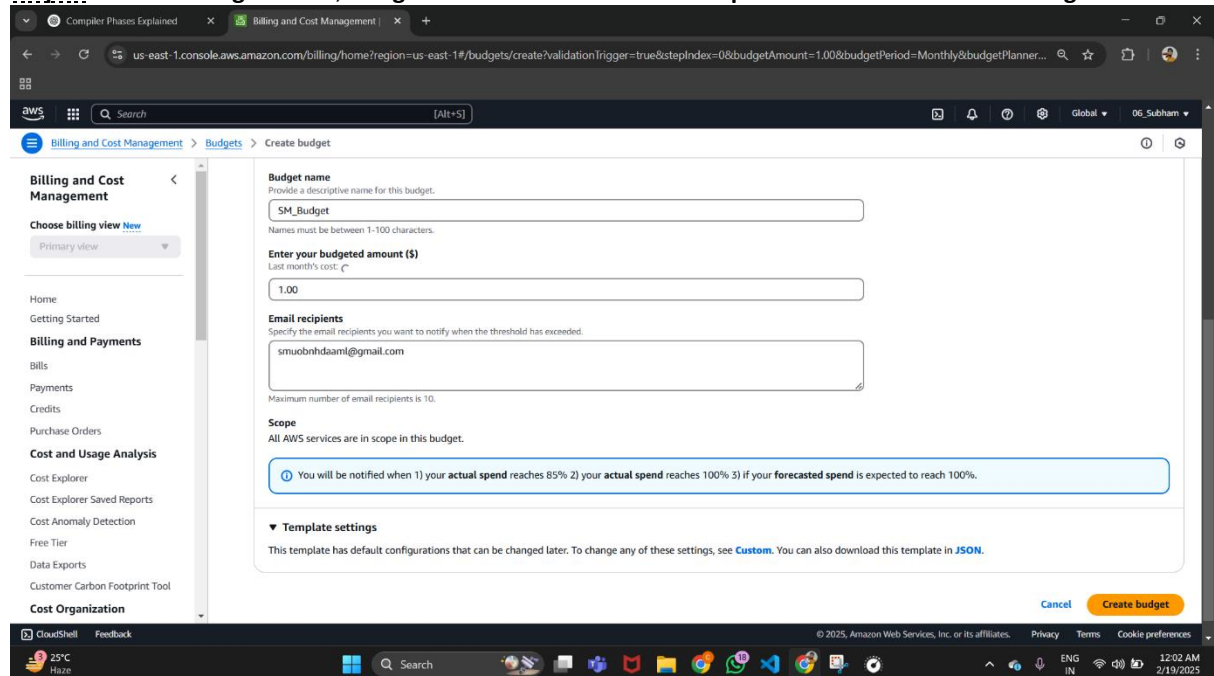

Step 3: Click on the **Create Budget** option.

Step 4: Under Choose budget type, Select **Use a Template** from Budget setup and **Monthly Cost Budget** from the Templates section.

Step 5: Give the Budget name, Budget Amount and the Email Recipients and Click on Create Budget.

Step 6: The Budget is created successfully.
